Answer(s) found in resource / stimulus..

Closed Questions

Open Questions

Answer(s) linked to resource/stimulus and wider context.

Student's stance based on resource / stimulus and wider context.

Extended to Broader Business Studies Context

Adapted Question Quadrant – Philip Cam 2006

The question quadrant is a thinking tool developed by Phillip Cam (2006) to elicit and generate meaningful and purposeful questions to guide learning. Open and closed questions lie along one axis while literal and inferential/applied questions lie along the other. To access support material click [here](#).
