Sharing Samples of Student Work for the Business in Action CBA

Each teacher of 2ⁿᵈ year students should submit four projects for the Subject Learning and Assessment Review Meeting. Where feasible, these samples should **contain an example at each of the four descriptor levels**. From each project, please identify the work that you would like to discuss. This will include the group project plus relevant individual research and reflection sheets. The information will be used to create a running order for our upcoming Subject Learning and Assessment Review (SLAR) meeting. As we may not have time to discuss all 4 samples, please number the pieces 1 to 4. 1 should indicate the sample that you would most like to discuss at the SLAR meeting.
