

Reflection Bookmark

Instructions for use

This bookmark is to help both subject departments and individual teachers to reflect on the planning taking place in relation to Junior Cycle Home Economics.

Steps for making the book mark:

1. Print out the desired size bookmark (A4 or A5).

2. Cut out the bookmark leaving the back and front attached to each other.

3. Fold along the white section between the two halves to create a double-sided bookmark.

4. Glue together or laminate to make durable.

Reflection

Departmental

Did the selected learning outcomes allow for incremental development of learning?

Did the selected learning outcomes integrate well together?

Did the action verbs inform the key learning and assessment?

How did the students experience the key learning?

Would we change any of the agreed assessment checks?

How might we return to these learning outcomes in a future unit of learning?

Refer to Collaborative Planning Diagram

for teachers

@JCforTeachers

Reflection

Individual

Were the learning intentions suitable for my students?

Were the learning intentions linked to one or more learning outcomes?

How did my students experience the action verbs?

How did students demonstrate their learning?

How did the assessment support student learning?

What did I learn from this experience that may help me in the future?

Refer to Collaborative Planning Diagram
