- **CORK** Education Centre Wed 2nd May 18:00 - 20:00
- **DONEGAL** Education Centre Tue 8th May 18:00 - 20:00
- **BLACKROCK** Education Centre Tue 15th May 18:00 - 20:00

The JCT Music Technology elective is an exciting opportunity to work through our music specification using digital technologies. The workshop will explore digital technologies that can support the learning and teaching of Junior Cycle Music learning outcomes.

In exploring learning outcomes that could be engaged with using digital technologies, teachers will build confidence in using basic digital skills, with software such as Audacity on PC and Garageband on iPad, with a view to creating innovative learning experiences for their students.

iPads and PCs will be provided. Please bring your own headphones. Tea and Coffee available from 17:30.
