

How to Create an Unprepared Sight-reading Test for Guitar/Ukulele in Flat.io

Step 1: Create a new score

Step 2: Title the score

Step 3: Add instrument – ukulele/acoustic guitar

Step 4: Make sure to turn off 'use tablature'

Step 5: Select **Measure** > add bars [+]

Step 6: Select all 4 bars by holding down **Ctrl/Cmd A**

Step 7: Select **Measure** > slash notation 

Step 8: Click on the escape button to unselect all

Step 9: Click on the note to input the first chord. To add a chord click on **Ctrl/Cmd + K**.

Press enter after each chord is positioned to move the cursor to the next chord

Step 10: Input **Dynamics**

Step 11: Export your sightreading to pdf and/or mp3 for sharing with your students
