

Junior Cycle Level 2 Short Course Development Community

A group of six teachers from six special schools engaged throughout 2015 in a Junior Cycle Level 2 Short Course Development Community.

The work involved curriculum innovation where, within a pioneering community, the teachers undertook the creative process of short course design. The Level 2 short courses are aligned with the Framework for Junior Cycle, and are specific to the needs of the students within, and the context of, each special school. The short courses are continuing to develop in light of feedback from each other, and from the National Council for Curriculum and Assessment (NCCA), with the support of JCT.

Examples of the Level 2 short course titles are:

- Water, Water Everywhere
- Where am I from? Where am I going?
- Grow It, Cook It, Eat It!
